A DIGITAL BULLETIN - DECEMBER 2022

**Derek Spada Wins \$828,000
in Arbitration for Car Wreck
Victim**

Derek's client was rear ended while stopped at a traffic light in Kingston. He won summary judgment on the issue of liability against the defendants. In other words, the person who rear-ended his client caused the accident. However, the defense disputed whether his client's injuries met the Serious Injury threshold. The court found that questions of fact existed as to whether the plaintiff sustained a "significant limitation of use" and/or "permanent consequential limitation of use." Because these questions could not be answered in court, this matter was brought to arbitration to resolve.
